

THE NORTHWEST'S FINEST ORGANICALLY GROWN

AGRI-STAR

Doug & Mary Lewis
North Powder, Oregon

Having been raised on a family dairy farm, Doug pursued farming as a career in 1975 after graduating with a degree in psychology. He wanted to create a more sustainable farm because of growing concerns on the impacts of synthetic pesticides and fertilizers on the environment and soil health. Since 1999, Agri-Star has increased the number of certified organic acres, and operates a certified organic potato packing, seed cleaning and processing facility.

Sustainability

- Stores water with gravity fed irrigation system, eliminating the need for pumping in extreme drought
 - Lowering outside inputs and utilizing cover crops
 - Achieves net zero energy 9 months out of the year
 - Installed solar panels
 - Converting to LED lighting
 - Established a riparian reserve for wildlife on the North Powder River
 - Uses hybrid and electric LEAF vehicles

"We are dedicated to growing food that is healthy from soil to market."

Crops

Red Potatoes
Russet Potatoes

Acreage

880 acres
Certified Organic
since 1999

LADYBUG Brand is brought to you by

Organic and beyond — LADYBUG represents family-owned and operated, organic and Salmon-Safe certified farms located throughout the Pacific Northwest. Working in a spirit of cooperation, LADYBUG farms plan the production of nearly 100 fruit and vegetable crops each year. We take pride in the quality of our crops and our role in creating environmentally-conscious agriculture.
