

THE NORTHWEST'S FINEST ORGANICALLY GROWN

LOPEZ FARM

Vidal Vargas & Adriana Lopez
Nisqually Valley, Olympia, Washington

In her youth, Adriana grew up around farms and farmers markets. After marrying Vidal, they wanted to contribute to the preservation of the environment by providing healthy and organic produce to their community. Adriana's father, Javier Lopez, is a long-time grower who helped the couple plant roots in the local farming community. To this day, he mentors the family and contributes to their success. The 2nd generation farm is a small-scale operation, but someday the family hopes to expand their acreage. Farming organically is important for them, because they appreciate the environmental benefits; they also notice superior quality in the produce, "You can smell and taste the difference!"

Organic Philosophy

The Lopez family believes that organic fruits and vegetables are healthier for our bodies and the earth. As farmers they are stewards of the land, striving to produce food using sustainable methods like crop rotations, cover crops and composting.
