AUDIT TYPE:

Announced Audit

AUDIT SCOPE:

This operation primarily repacks various organic products, with the exception of their fresh berry pack line, and the equipment for this line is leased. During the inspection on 7/18/18 there was repacking of melons, packing of fresh blueberries, and conditioning of tropical fruit occurring. This operation has another facility in Eugene Oregon, and both facilities share an FSMS, so the FSMS portion was performed for both facilities on the same day. This operation does not utilize any water or ice for packing, washing, etc. The product List has not changed in two years.
