

# BRAGA ORGANIC FARMS NUTS & NUT MIXES

Family owned and operated, and always organic, Mike and son Jeff Braga are dedicated to producing the highest quality raw and roasted nuts on the market.

Located in Madera, California, Braga Organic Farms grows 40 acres of organic pistachios and works in partnership with other small organic growers to source a wide range of nut varieties.

Investments in cold chain management and in-house artisan micro roasting ensure impeccable freshness, allowing Braga Family Farms to bring the highest quality product to market. And, with a facility powered almost exclusively by solar, it's an operation that's climate-smart, too.
